PROFILE

JSIPL

JSIPL is basically a private brand manufacturer whose strength lies in global sourcing of materials and capability to do any kind of production run from small to large. All JSIPL products are end results of quality, competence and consistency. Both with forward and backward integration, the company have total control from raw hide / yarn selection to final production. JSIPL is the only company in eastern India to have Enterprise Resource Planning (ERP) system which provides the users with real-time information on the operation process from the enquiry to the shipment stage. In the field of Work and Safety wear JSIPL products have now been recognized in Europe, North America, and Australia as one of the finest in their category. We continuously try to improve wearer comfort, appearance and durability to match specific protection requirements.

JSIPL is now pioneer in India in innovating multi functional Safety wear to conform to the AUS/NZ, ASTM, ANSI, NFPA, and EN & IS norms that globally standardize the multi-protected capability garments. As the result of our dynamic global network with specialized textile mills and leather processing units, we are effective to create multiple levels of protective based on wide range of safetyware fabrics and leather to guard against such industrial and occupational hazards as fire, static build up, chemical splash, low visibility, water, oil, dust, etc. In the field of manufacture of gloves JSIPL has very effectively combined craftsmanship and consistency. Our products in these fields are tested against abrasion blade cut, tear and puncture. Almost all our European customers have got their CE Cat II and above approval using our products.

The present JSIPL manufacturing and quality control system is designed in accordance with ISO Quality Management System and is duly certified by BSI, UK.

Today, JSIPL products are sold in 19 countries.

DEVELOPMENT OUR RESPONSIBILITY

Being conscious of and dedicatedly concerned with its corporate social responsibilities, JSIPL has been ever supporting social cause services. For this, our group companies collaborate in a substantial way with a leader social service NGO and contribute a large outlay on social service projects of permanent and time needs.

Activities in collaboration with Social Services Organization, our chief collaborator is Lions Club of North Calcutta which has been a brand citadel for last 52 years in the areas of humanistic services, especially in the tri-fold of Environmental Preservation, Education and Health where JSIPL has been sponsoring a wholesome financial fund support.

We equally contributed our support to acquire computers for training the youth in need for self employment, conducted by the Lions Club.

In the field of Environmental Preservation and Promotion, we were partners in providing Tree Plantation, beautification, constructing Walking Track and providing an Acupressure Punch Center for better health of morning walkers and other health-keen citizens.

Our priority has been uplifting our rural base and for this, we ran programs for training women from lower strata in different stages of Gloves Manufacturing so that they can earn their livelihood in a respectable manner. We trained 150 women in a special session on 11th June, 2013. Engaged in such self-sustaining activities, they are being brought in the mainstream. Similarly, in a special training session in tailoring on 17th May, 2013, another 150 women acquired the needed skills.

We plan to associate about 5000 skilled person in the area of manufacturing gloves. In the current financial year an eye screening camp was organized under our leadership in Doltala, Madhyamgram where 352 people were screened and 38 persons were successfully operated free of cost to regain sight. Besides, 38 people were given ECG and Diabetes check up. 205 Glasses were distributed to the needy and the process would continue to benefit more and more of the society.

JSIPL is dedicated to carry on with their social responsibility mission with greater force and it has already formulated its specific programmes for the near future, with priority for reaching out to more and many.
